

Breeder: Bretagne Plants Innovation  
Registration : 2007 (France) ; Cross breeding : Chloé x Justine  
Representative in France : Elorn Plants

GALANTE is ELORN PLANTS' leading variety in the firm-fleshed and shot market. Its high tuberization capacity and light skin make it a must in the firm-fleshed shot market. Its taste and excellent presentation make it a high quality potato.

**Consumption  
with firm flesh**

**Strong  
tuberization**

**Suitable for baby  
potatoes production**

**Very good  
washability**

**Excellent  
taste quality**
